# INTRODUCTION:

---

It is an online marketplace where people buy and sell different digital services. In today's world freelancing is a great opportunity. The concept of project is a marketplace that would provide a two sided platform for people to buy and sell a variety of digital services typically offered by freelance contractors. Services offered on the site include writing, translation, graphic design, video editing and programming. In today's world no developer can find a better site to earn income at home.

Through this platform a developer get lot more projects in very less time as well as a client will get many more options. Also bidding facilities are available in this system. You can live chat with your freelancers to ask questions, share feedback and get constant updates on the progress of your work. Manage your project at the touch of your fingertips.

Pay safely and securely in over 39 currencies through the Milestone Payments system. Only release payments when you are satisfied with the work.

Collaborate with your clients on the go and get alerted on the latest jobs with our system. Our job alerts system will keep your customer updated once new projects that fit a customer's skills and expertise become available.
